The Builder /Long Service award is designed to recognize those volunteers who have left a significant mark on the sport of triathlon in our province. Through their participation as a racer, event organizer, or race official, the Long Service Award recognizes this contribution to the sport. If not for these individuals who dedicate selfless hours to organizing events, our sport would have dissolved away years ago.

Please address the following areas as part of your nomination:

1. Please describe the nominee's contribution to the overall organization, promotion, and development of the sport. This may include committee involvement, clinics, organization in races, programs, development of coaches, and other service record information including leadership initiatives.
2. Please include any other efforts of initiatives to be considered that may be of interest.
